AI RESEARCHER

Recent PhD graduate specializing in deep learning, neural networks, and advanced natural language processing. Deep theoretical understanding of transformers and text embeddings.

EDUCATION

- PhD in Computer Science (Focus on AI) | MIT (2020 - 2025)
- Bachelor of Science in Computer Science | UT Austin (2016 - 2020)

EXPERIENCE

Graduate Research Assistant | MIT AI Lab (2020 - 2025)

- Published 4 papers in top NLP/ML conferences on text similarity, TF-IDF enhancements, and Cosine Similarity limitations.
- Developed deep learning models in PyTorch and TensorFlow.
- Coded extensively in Python, leveraging NumPy, Pandas, and NLTK.

SKILLS

- Deep Tech: Machine Learning, Deep Learning, NLP, PyTorch, TensorFlow, Transformers
- Code: Python, C++, NumPy, Pandas, NLTK
- Math: Linear Algebra, Vector Embeddings, Cosine Similarity, Statistics
